How to Print

2026 Christmas and Holiday Planner

Files

You will find two PDFs: US Letter (8.5 x 11 in) and A4 (210 x 297 mm). 19 pages.

Pick your size

Use Letter in the US and Canada. Use A4 almost everywhere else. Planners with a Sunday week start are in the Letter file; the A4 file starts weeks on Monday.

Print settings

Choose Actual size or 100% (not 'fit to page'). Print single-sided or double-sided as you prefer. Leave margins at default.

Paper

Standard 20 lb paper works. Matte cardstock (65-110 lb) is nicer for writing on. The pages are mostly white space, so they are light on ink.

Binding

Punch holes for a 6-ring or 3-ring binder, use a clipboard, or take the file to a copy shop for coil binding.

Reprint

Print as many copies as you like for yourself. Please do not resell or share the files.
